DETAILED ACTION

Receipt is acknowledged of applicant's Preliminary Amendment filed on July 24, 2001.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 27-38, drawn to a biologically inactive wax cushioning bead.

Group II, claim(s) 39-46, drawn to a solid shaped article containing biologically active loaded beads and a method of treating a plant with said article.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is drawn to an inactive wax bead used as a cushioning bead in tablet formulations and Group II is drawn to a solid shaped article that has biologically active loaded bead that is used to treat plants.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
